

Submersible Drainage Pump Type ABS XJ 40

EN 50 Hz

Specification

Electric submersible pump.
 Maximum submergence: 20 m. • Protection class IP 68.
 Max temperature of pumped medium at max power input and continuous duty 40 °C.
 Max medium density 1100 kg/m³. • pH of the pumped medium 5-8.
 Strainer hole: 7.5 x 22 mm.
 Max number of starts 30/hour.

XJ 40 ND, Medium head, 3-phase

XJ 40 ND AT*, Medium head, 3-phase

XJ 40 HD, High head, 3-phase

XJ 40 HD AT*, High head, 3-phase

*AquaTronic: Built in electronic pump control.

Electric Motor

3-phase squirrel-cage induction motor, 50 Hz
 Service factor 1.1. Class F insulation.
 Motor rating P₂: 3.7 kW. 2 pol, Speed: 2860 rpm
 η: 85.8 (50 %), 87.1 (75 %), 86.9 (100 % load)

Voltage, V	230	400	500 - 550	690	1000
Nominal current, A	13.2	7.6	6.1 - 5.8	4.4	3.0

Starting Method and Motor Protection

XJ 40 AT: Direct on line start (DOL 230-550 V) with built in AquaTronic unit, which automatically adjusts phase order by dual contactors, ensuring correct motor rotation.
 The AquaTronic unit monitors motor temperature, by use of NTC thermistors built into stator windings, and stops the motor at high temperature. It will also stop the motor at high amperage or if a phase is missing.

XJ 40: Direct on line start with built in contactor. Pumps to be used with VFD or 1000 V must have terminal block instead of contactor.
 Thermal switches [140 °C, ±5] built into the stator windings are connected to the contactor and stops the pump at high temperature.

Power Cable

20 m type S1BN8-F (standard cable):
 4 x 1.5 sq.mm. (230-690 V)

20 m type NSSHÖU.../3E (heavy duty cable):
 3x2.5+3x2.5/3E+3x1.5 (3 control cables included) (1000 V or terminal block)
 3x1.5+3x1.5/3E (230-690 V)

Shaft Seal

Double mechanical seal in oil bath.
 Primary seal: Silicon carbide on silicon carbide
 Secondary seal: Silicon carbide on carbon

Bearings

Upper bearing: Single-row deep groove ball bearing.
 Lower bearing: Double angular contact ball bearing.

Discharge Connections

2 1/2", 3" (standard), 4" hose connections.
 2 1/2", 3", 4" G/B.S.P. threaded connections.

Weight (without cable)

42 kg

Options and Accessories

AquaPlug • Level sensor • Service data kit
 Zinc anodes • Surface protection coating
 Series connection • Floatation ring

Materials

Description	Material	EN	ASTM
Castings	Aluminium	EN 1706:AC-43100	ASTM AlSi10mg
Strainer / Handle	Stainless steel	10088:X5CrNi18-10 (1.4301)	AISI 304
Rotor shaft	Stainless steel	10088:X20Cr13 (1.4021)	AISI 420
Impeller / Wear ring	White cast iron	EN-GJN-HV600(XCr23)	ASTM A 532: Alloy III A
Fasteners	Stainless steel	10088:X5CrNiMo 17122 (1.4401)	AISI 316
Wear parts / O-rings	Nitrile rubber		
Coating	2 component epoxy paint 80 µm
