OPTIONAL EXTRAS

Please contact us to discuss these options:

- Additional operational, mobility and safety extras such as: suction and discharge couplings, strainers, battery isolators, sleds and trailers. These can all be selected and fitted to our Basic Range (BR) pump units.
- Our BR build configuration uses Perkins diesel engines, however, alternative engine brands are available upon request.
- Other pump materials of construction are also available upon request: full 316 stainless steel, CD4MCU, chromium steel, SAF 2205 and SAF 2507.

This pump and engine combination will produce up to 2,000 RPM of non-overload pump performance.
